a
Claude: stated confidence vs stated P(yes) (log count)
Stated confidence
Stated P(yes)
b
Claude: confidence vs replicate variability (mean ± 95% CI)
stateless
topic
topic, shuffled
|Δ Net_P| between replicates
Mean stated confidence (pair, binned)
c
Claude: confidence for coherent vs contradictory pairs
Mean stated confidence (pair)
coherent
contradiction
stateless
topic
topic, shuffled
d
Coherence weight vs variability under shuffling (mean ± 95% CI)
